OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place of use, and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 20308, Certificate 6015, is issued subject to the terms and conditions imposed in said Permit 20308, Certificate 6015, and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined amount of water granted under this permit and Permits 37018, 37020, 37021, is limited to what the well covered under the four permits is capable of producing. If certificates of appropriation are issued under this permit and Permits 37018, 37020, 37021, the total combined amount of appropriation granted in said certificates shall not exceed what the well covered under the four permits is capable of producing.

The total acreage granted under this permit is 34.8475 acres. The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not

to exceed.....0.193.....cubic feet per second, but not to exceed a yearly

duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources:

Actual construction work shall begin on or before.....December 20, 1980.....

Proof of commencement of work shall be filed before.....January 20, 1981.....

Work must be prosecuted with reasonable diligence and be completed on or before.....December 20, 1981.....

Proof of completion of work shall be filed before.....January 20, 1982.....

Application of water to beneficial use shall be made on or before.....December 20, 1983.....

Proof of the application of water to beneficial use shall be filed on or before.....January 20, 1984.....

Map in support of proof of beneficial use shall be filed on or before.....January 20, 1984.....

Per our meeting in your office on December 26, 1978, this application to change point of diversion, place of use and manner of use is being made at the instance of **P.V. FARMS**, due to the fact that industrial and stockwatering uses no longer exist within Palomino Valley. In order to insure against forfeiture of this existing certified right this application is made to change to irrigation use the water heretofore appropriated under certificate number 6015.

Along with the above mentioned changes a request is hereby made to allow the maximum duty of 139.39 acre feet to be diverted during the normal irrigation season. It is understood that the amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed a seasonal duty of 4.0 acre-feet per acre of land irrigated from and/or all sources.

Sincerely,
